In case a candidate has appeared in more than any one of the above prescribed optional subjects, the subject in which the candidate has obtained the highest marks will be taken into consideration for 'normalisation' and for the total marks. (a) Ranking shall be based on the normalised marks (rounded-off to three decimal places) arrived at to a base of 200.

(b) Admission is based on the prescribed subjects in the qualifying examination (*i.e.*, Biology / Botany and Zoology, Physics and Chemistry including practicals).

In case a candidate has appeared in more than one of the prescribed optional subjects, the subject in which the candidate has obtained the highest marks will be taken into consideration for 'normalisation' and for the total marks wherever separate marks for practicals are awarded, the same will be considered along with the respective subjects, for arriving at the total actual marks and hence the 'normalised marks'.

(c) Equal weightage shall be given to all the above three prescribed subjects. In case a candidate has appeared in more than one of the prescribed optional subjects, the subject in which the candidate has obtained the highest marks will be taken into consideration for 'normalisation' and for the total marks. Wherever separate marks for practicals are awarded, the same will be considered along with the respective subjects, for arriving at the total actual marks and hence the 'normalised marks'.

(iv) *B.Pharm.* :

(a) Ranking of the candidates shall be based on the normalised marks (rounded-off to three decimal places) arrived at to a base of 200.

(b) Admission is based on the prescribed subjects in the qualifying examination [*i.e.*, for H.S.C. Academic: Physics, Chemistry and one of the following optional subjects (Mathematics / Bio-Technology / Computer Science / Biology / Botany and Zoology) in which the candidate has scored the highest marks (including practicals)].

(c) Equal weightage shall be given to all the above three prescribed subjects. In case a candidate has appeared in more than one of the prescribed optional subjects, the subject in which the candidate has obtained the highest mark will be taken into consideration for 'normalisation' and for the total marks. Wherever separate marks for practicals are awarded, the same will be considered along with the respective subjects, for arriving at the total actual marks and hence the 'normalised marks'.

(C) In order to evolve a common base for comparing the marks obtained by the candidates from various Boards of Examinations, 'normalisation procedure' as outlined below shall be followed:

1. The marks obtained by the students in the relevant subjects in the qualifying examination conducted by various Boards or Authority, shall be equated with the marks obtained by the students in the same subjects in the qualifying examination, conducted by the State Board (*i.e.* State Board of School Examinations, Tamil Nadu) by adopting the method of normalisation.

*Explanation.*— Under the method of normalisation, the highest marks obtained by the students of various Boards in each subject, shall be equated to the highest mark obtained by the students of the State Board in that subject, and the relative marks of other students in that subject, shall be determined accordingly.

*Illustration.*— If the highest marks secured by a student of the State Board, in Physics is 100 and the highest mark secured by a student of any other Board in the same subject is 90, then, both the highest marks will be considered to be equal to 100. If a student of the other Board secures 60 marks in Physics, when the first mark in Physics in the same Board is 90, then, 60 marks will be considered to be equal to 66.667 marks as arrived at and given below:

$$(100 \times 60)/90 = 66.667\%$$

2. After normalisation of marks of the eligible students of different Boards, in the relevant subjects, the 'normalised marks' obtained shall be merged into 'a common merit list'.

3. In cases, where more than one student have got the same marks in the 'common merit list', the '*inter se* merit' among such students shall be determined in the manner prescribed as in paragraph 7(F) below.

4. For the purpose of normalisation of marks of candidates from 'Other States', except for B.Tech. course, marks obtained in the respective subject, from among the various Boards under which the above candidates have actually studied and applied for a particular course, shall be considered.

*Example.*— For B.Pharm. course, if candidates from Andhra Pradesh, Madhya Pradesh and Maharashtra alone have applied against "All India Quota", then, the above Boards and their maximum marks only need to be considered, for the purpose of 'normalisation' of marks.

(D) Admission to 'B.Tech. Degree' course, for the candidates belonging to 'Other States' (*i.e.*, for All India quota of seats), actual merit marks obtained by such candidates in "AIEEE" (All India Engineering Entrance Examination) alone shall be considered. Further, all such candidates shall be required to apply in the prescribed Admission Application Form and shall also satisfy all other requirements as specified in the Information Bulletin (2009-10).

(E) Admission of candidates belonging to 'Other States' (*i.e.*, for the All India quota of seats) for all other professional courses, (except for B.Tech. course), wherever such quota exists and an All India based recognised entrance examination is not available, shall be based on the '*inter se* merit list' drawn based on the 'normalised marks'. Further, all such candidates shall be required to apply in the prescribed Admission Application Form and shall also satisfy all other requirements as specified in the Information Bulletin (2009-10).

(F) When more than one candidate have got the same marks in the common merit list (*i.e.*, the merit list prepared after merging the normalised marks of candidates from various Boards), the '*inter se* merit' among such candidates, for each course shall be determined "in the order of priority" as specified in Table- I.

*Table – I : Order of priority for breaking the 'tie' in the 'normalised marks' for various courses.*
